AMENDMENT AND REQUEST FOR 3-MONTH EXTENSION

Sir:

Please enter the following amendment responsive to an Office action mailed 10/21/2004. The applicants request a 3-month extension of the time to respond. An appropriate fee is included.

Status of the Claims

Claims 1 – 11 are pending and are rejected. Claims 1 – 5, 7 and 11 are amended by this response. No previous amendments have been submitted.

Complete List of Current Claims

A complete list of the current claims, as amended, is shown on the following pages.

1 1. (currently amended) A system for exchanging digital content files as email attachments,
2 comprising:
3 a system server connected to a communications network and implementing a
4 standard electronic mail protocol for sending and receiving email and digital content email
5 attachments via the communications network;
6 the system server having storage and retrieval means for a plurality of user interface
7 display screens and digital content files;
8 an Internet appliance for receiving a reduced keyset keystroke sequence, a
9 connection with the communications network for establishing a client relationship with the
10 system server, a browser for accessing user interface display screens via the network
11 connection, a video/audio converter providing output signals compatible with a standard
12 television receiver for display of accessed user interface display screens, and hyperlink
13 selection means responsive to the received keystroke sequence for navigating an
14 accessed user interface display screen;
15 the user interface screens and the reduced keyset keystroke sequence defining a
16 text entry and editing protocol, an email creation and addressing protocol, an email viewing
17 protocol, and an email deletion protocol;
18 the user interface screens and the reduced keyset keystroke sequence also defining
19 an email attachment selection protocol permitting selection of digital content files for
20 attachment to a user created email;
21 the system server including means responsive to the email attachment selection
22 protocol and the reduced keyset keystroke sequence for retrieving a selected digital
23 content file, and for encoding the retrieved file as a standard email attachment;
24 the system server including means for establishing a connection via the
25 communications network with a standard email server, and for sending [[the]] an email and
26 the encoded attachment to the email server using the standard email protocols;
27 the system server including means for establishing a connection via the
28 communications network with the email server for receiving email and encoded
29 attachments, for decoding the attachments, for storing the received email and decoded
